Summary

Dynamic and innovative Web Developer with expertise experience in frontend development life cycle and systems integration. I specialize in front-end development with React JS, HTML5, and CSS3/SASS. Experienced in providing technical leadership, configuring applications, and leveraging technologies to advance client-first strategies.

Education

Post Graduation in Web Development   Sept 2022 – Dec 2023
Conestoga College,Kitchener,ON   *GPA: 3.48/4*

Bachelor of Technology in Computer Science   Aug. 2018 – June 2022
Silver Oak College of Engineering and Technology   *CPI: 8.51/10*

Skills

Frontend: React JS, Redux, Babel, React Hooks, HTML5, CSS3/SASS
Backend: Node JS, Express, GraphQL
Database: MongoDB, SQL

Projects

SiteScripter | *React JS,Node JS*   Feb 2024 - Apr 2024
- Implemented a user-friendly interface allowing users to explore detailed product pages, add items to the cart, and proceed to the payment page effortlessly.
- Integrated user authentication using toastify for registered members to access personalized dashboards, enabling them to track their order history conveniently.
- Utilized Context and Reducer in React to enhance the search functionality with various filters, optimizing product discovery for users.

LicenceNinja | *React JS, MongoDB*   Jun 2023 - Aug 2023
- Engineered a driving examination platform with distinct roles for driver, administrator, and examiner, enhancing operational efficiency.
- Implemented a feature allowing drivers to enter user and vehicle details as well as schedule exams, with robust validation checks to ensure data integrity.
- Empowered examiners with tools to review and manage scheduled appointments and record detailed examination outcomes.
- Enabled administrators to generate examination schedules and manage users to streamlining administrative workflow.

Footwear Hub | *Flutter*   Jan 2023 - April 2023
- Designed and Programmed a robust Android e-commerce application using Flutter, facilitating the sale of a diverse range of footwear.
- Boasted various functionalities as dynamic home page, a comprehensive product listing page, user-friendly cart and a secure payment gateway
- Offered an elaborate details page, providing comprehensive details on various types of footwear available.

Experience

Software Engineer Intern   Jan 2022 - May 2022
Replete Software Solution   *Ahmedabad, Gujarat*
- Developed responsive and user-friendly interfaces for web applications using React JS, ensuring compatibility across multiple devices and browsers.
- Collaborated closely with design and backend teams to translate wireframes and mockups into functional front-end code, maintaining consistency with design specifications.
- Curated and customized web pages using CSS frameworks such as TailwindCSS and SCSS, to streamline development processes and enhance styling flexibility.

Leadership / Extracurricular

Volunteer   Jan 2019 - Dec 2019
Participated in organizing IEEE event   *Silver Oak University*
